

U.S. Army Offers Program to Grads.

Applications are now being taken for the school of your choice of which there are over 100 technical courses available, it was announced by M/Sgt. Catena, local Army recruiter.

The United States army has a unique technical training program for high school graduates. This is a written guarantee before entering the service that the individual will attend a course of his own choice after eight weeks of basic training, upon enlistment for three years.

Further details regarding these specialized and technical schools, may be obtained by calling Sergeant Catena at Fairfax 8-7069, or by visiting the army recruiting station, room 1, post office building, 1433 Marcellia, Torrance.
